## Guide to Moving - Introduction

We will make your home move as simple and easy as possible.

All of our residential home moves follow a simple tried and tested 6 step process:

- 1 From your initial enquiry you will be put in contact with a dedicated Home Move Manager. They will manage your entire move with you.
- 2 Your Home Move Manager will arrange to visit you in your home and discuss your 'move out' and 'move in' programme. They will discuss with you our moving services and assess the volume of your belongings.
- 3 Next you will receive a personalised quotation with a clear breakdown of costs and timescales for the move. This will include details of all timings, transport methods, moving services and the team members dedicated to your move.
- 4 We know you need time to read and compare quotes, which is why your Home Move Manager will always be on hand to answer any questions you may have.
- 5 When you have made your decision, your Home Move Manager will ensure that everything runs smoothly. If required our dedicated removals team will see that everything is logically packed, secured and boxed.
- 6 On the day of your move, the removals team will ensure a seamless delivery of your precious belongings to your new home and unpack them if you require allocating them to the rooms you have labelled.

The following Home Move Guide will help you plan for the big day. 

We take great pride in what we do:
